POLYPHONIA

Thematic Tourism Development Through the Preservation of Polyphonic Music, unique element of the cross -border Cultural Heritage

It has been more than 2,5 years of coordinated efforts, hard work and constructive collaboration, among the POLYPHONIA Partners, that have enabled us to create tools for the preservation of our regions' polyphonic music ant its valorisation in the field of thematic tourism.

The POLYPHONIA Project, funded by the Interreg IPA CBC Greece–Albania Programme, has effectively addressed the need to study, collate and preserve this rich and authentic musical heritage of polyphonic music through cross-border cooperation between Greece and Albania.

We hope that our approach will set the foundations for parallel and broader initiatives and that our Project, which has shown concrete results, will be further capitalised in the future.
